## Skills

**Client Relations**

I dealt with temper and calmed clients

**Adept**

I can handle any situation with any pressure

**Bilingual**

I can understand and read in Spanish

**Java Script**

I know the basic but will master if needed for this company

I have recently started a program that is sponsor by the University of Minnesota for web development. I have done many things with Java, HTML, CSS, jQuery, JSON, Bootstraps, and firebase date. i have worked in the service industry for 7 years. I have many experience with dealing and handling with "good" and "bad" guest. I been the first person to get called upon when a guest is having a bad time or is not making their concern clear. My passion is to learn different ways into improving myself to help the company i work for better. I am extremely hard worker. I will try my best into solving problems and finding solutions.

## Experience

2011-08 - present **Front server attendant**  
*Kelber catering*

- Train new employees into company procedures
- Lead small teams to finish task set by supervisor
- I been the "go to guy" for small task that required small details

2016-02 - present **Hyatt regency**  
*Banquet server*

- I have assemble and manage small functions on my own
- Discuss with clients with any schedule changes
- Set and input procedures for new hires

## Education

2010-08 - 2014-06 **Cristo Rey Jesuit Highschool**  
I was part a STEM program sponsor by the University of Minnesota. I did robotics and was a part of SHPE (Society of Hispanic Professional Engineers)

2014-08 - 2015-01 **Minneapolis community and technical college**  
Did mathematics for a year and a half but took a break

2019-01 - present **University of Minnesota Boot camp**  
I am have started a program that is sponsor by the university of Minnesota and i have learn many new skills that will allow me to do my job as efficiently as possible for the company

CSS

I have a firm grip on what is need from  
this program

HTML

I can set up divs, ID, and classes

jQuery

Like java i know the basic but will be  
eager to learn more

JSON

I recently learned this and will get  
better in time with this
